

A tutor should not be continually thundering instruction into the ears of his pupil, as if he were pouring it through a funnel, but induce him to think, to distinguish, and to find out things for himself; sometimes opening the way, at other times leaving it for him to open, and so accommodate his precepts to the capacity of his pupil.

- Monthly progress reports
- Researched-based curriculum & assessments

Standards-Based Assessments

Determine each child's strengths and weaknesses with our computerized formal assessments in each of the following areas:

- Reading
- Language Arts
- Mathematics
- Science

Our teachers develop a customized student plan, which targets the immediate needs of each child.

Our Teachers

Our teachers study each student's IEP and incorporate the objectives into our instructional program. We tailor each child's program to meet their specific academic needs.

Contracting Credentialed Teachers

We are an excellent resource for public, non-public, and private schools. Our teachers and consultants will provide assessments or attend IEP meetings in order to evaluate the child's needs. Detailed instruction such as preparing for the High School Exit Examination or Homework Help may be contracted.

Services may be delivered through the student's IEP or Compensatory Education.

This is a cost-effective solution for school districts. The district does not pay payroll taxes or Social Security for the contracted teachers.

Partnerships

Our company is partnered with over 250 school districts and government agencies. Many letters of reference are available upon request. You may visit our website for further information about our company.
